## ACTIVITY

THEME 1

# INTERPLAY

Beneath a composed surface, something is always moving.  
A quiet force, shaping form without being seen.

**"Undertow begins in restraint."**

Lines hold their balance, and relationships remain controlled.

**This state of tension and equilibrium defines 'Interplay'.**

THEME 2

# TURBULENCE

**"As repetition continues, stability starts to loosen."**  
Lines shift, intervals overlap, and structure becomes uncertain.

**Turbulence emerges—not as chaos,**  
but as accumulated motion guided by an unseen rhythm.

The collection traces this gradual transformation,  
revealing how structure dissolves into movement under the pull of a hidden current.
